

From Heaven to Earth

Watercolor Workshop

Saturday, April 8th 9:30am - 3:00pm

Learn how to expertly break down your painting into three key elements: background, mid-ground, and foreground in this one day class. Nature enthusiast and renowned 'abstract realism' painter Joe Cibere will share his techniques for creating paintings with strong design and a sense of illusion. Through step-by-step demonstrations, Joe will walk you through all of the stages of making a great painting; starting with magnificent skies, then the natural elements and textures of land, and finally illustrating how to masterfully capture the motion and reflection of water. After this class you will be more than prepared to tackle that next landscape like a pro.

Instructor: Joe Cibere • Ages 16+ • Cost: \$80 (+supply list)

To find out more about Joe, visit his website www.joeciberewatercolors.com

For additional details or to register call the Gallery at (714) 990-7731.
